DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 14, 15, 17 are rejected under 35 U.S.C. 103(a) as being unpatentable over Murch '295 in view of Bossert et al. (4,140,649).

The claims are rejected for the reasons of record over Murch '295 since the claims have been amended to include the limitations of the cancelled claims (Board of Appeals Decision page 2-8). Claim 14 further requires the addition of EDTA. Bossert et al. disclose that it is known to use EDTA in a cleaning composition for the surfaces of foods of plant origin (abstract and col. 5, lines 60-70 and col. 6, lines 1-10). Therefore, it would have been obvious to use a known calcium sequestrant in the claimed composition for the same function especially as the reference to Murch '295 discloses the use of polycarboxylic acids and their salts (col. 8, lines 56-68).

The limitations of claims 15 and 17 have been discussed in the last Board of Appeals rejection and are obvious for those reasons (pages 2-8).
